This workshop is suitable for: IPC Leads & Primary Care Managers

Introduction:

Primary care must comply with legislation and implement procedures and processes that help to prevent infections from spreading. We need to control and manage any risks that are detected to protect staff and patients.

Providing IPC leads and staff with high quality infection prevention training is extremely important, especially following the recent pandemic.

Course Content

- Overview of Infection Prevention and Control (IPC)
- CQC compliance and preparedness
- IPC Lead role
- IPC audits and change management processes
- Operational requirements and schedules inc. cleaning, waste management, premises etc.
- Staff training requirements
- Employment responsibilities
- Occupational Health access and services
- Q&A (30 mins at the end of the session).

Learning Outcomes / Workshop Objectives

After completing the IPC training, attendees will be equipped with the skills and knowledge they require to oversee, supervise and direct staff in all aspects of IPC.
