We will make every effort to resell the cancelled place. Where places are free a £45 charge will be applied to cancellations/DNAs. Payment is required within 30 days from date of invoice.

Respiratory Examinations Training

Date: 23rd June 2026
Times: 0930-1630
Venue: Wiltshire & Bath Air Ambulance Airbase, BA14 6JX
Places available: 12

Fee/s: NfP Members £105
Non-Members £150

This workshop is suitable for: Registered Health Care Professionals / Assistant Practitioners & Nurse Associates.

Introduction

For many nurses looking after patients with respiratory problems such as Asthma and COPD, being able to listen to a chest is a skill that can transform their practice and therefore patient care.

This study day is led by an experienced nurse and trainer with specialist qualifications and is aimed at those with experience of respiratory disease but not auscultation.

It is designed to equip nurses with the skills to undertake a physical examination of the chest. It will include (but not be restricted to):

- History Taking
- Palpation
- Percussion
- Auscultation
- Chest sound Identification
- Differential Diagnosis

This training is kindly sponsored by the following Pharmaceutical Companies

TBC

The above pharmaceutical companies have sponsored this meeting through the purchase of exhibition stand space only and have had no input into the agenda

Candidates need to bring their own stethoscope and be prepared to practice their skills within the group (no one will be asked to undress).

“Hands on dynamic and varied use of styles”

“The training was well structured and teaching was simplified to enable everyone to understand”

“Very informative. Very small information group; practical session fun”
