This workshop is suitable for: All clinical staff already working in this therapy area seeking an update and wishing to consolidate their knowledge.

This half day session is designed to consolidate knowledge that has already been gained from accredited COPD courses. Students will gain an overview of the current NICE and GOLD guidelines and the Clinical Strategy for chronic obstructive pulmonary disease along with the importance of self-management plans and how to deal with exacerbations. Students are encouraged to bring along any "difficult cases" to discuss within the group.

The session will also cover the new "diagnostic categories" identified by GOLD and how these may inform our patient management.

- Overview of current guidelines including GOLD 2023
- Treatments of chronic COPD patients
- Self-management plans and managing exacerbations
- Case studies
