Trainer Information

Cathy Warner has over 40 years of nursing experience, the last 18 of which have been in Primary Care, where she works as a Triage Nurse and the Lead Respiratory Nurse for a large semi-rural practice which holds the PCRS Respiratory Award.

Cathy holds post graduate qualifications in Asthma, COPD, Spirometry and Allergy; as well as being a Non-Medical Prescriber. She is the Guardian of the Wiltshire Airways Nurse Group (WANG) which she was instrumental in setting up several years ago. Cathy is also a Regional Trainer for [Education for Health](#).

To book a place/s email

bookings@networkforpractices.co.uk

Our acceptance of your booking brings into existence a legally binding contract between us on the following Terms & Conditions - If places are booked but cancelled before payment has been made or a candidate DNAs, the fee will remain due. Cancellations will attract a refund if the course is subsequently fully booked. To avoid any confusion, we ask that Cancellations are by email only. We will make every effort to resell the cancelled place. Where places are free a £25 charge will be applied to cancellations/DNAs. Payment is required within 30 days from date of invoice.

Introduction to Asthma & Low-Risk Patient Reviews

Date/s: 10th & 24th May 2024
Times: 0900-1630 (both days)
Venue: Rowdefield Farm Training & Education, SN10 2JE
Places available: 12

Fee/s: NfP Members £195
Non-Members £240

This workshop is suitable for: HCAs / HCSWs / Pharmacy Technicians & other appropriately trained staff.

Introduction

This workshop has been developed to support Primary Care Teams train staff to undertake asthma reviews for low-risk asthma patients.

Aims and Objectives

By the end of this workshop candidates will have learnt the basics of asthma, it's diagnosis and treatment and will have gained knowledge of the skills required to undertake asthma reviews on identified low-risk patients. The course is delivered in an interactive and practical way, which includes a 20min practical assessment on day 2 to consolidate learning.

Topics covered:

- Basics of asthma
- How it's diagnosed
- Treatment - pharmacological and non-pharmacological
- Inhaler technique
- Personalised Asthma Action Plans
- Red Flags and referring on...
- Undertaking reviews for low-risk patients

🚫 Candidates need to bring a placebo dry power and pmd inhaler that they will be able to use during the training

This training is kindly sponsored by the following Pharmaceutical Companies
