Trainer Information

Cathy Warner has over 40 years of nursing experience, the last 20 of which have been in Primary Care. She currently works as Lead Respiratory Specialist Nurse for a large, 8 practice PCN. Cathy holds post graduate qualifications in Asthma, COPD, Spirometry and Allergy and has recently completed a Masters Degree in Respiratory Practice; as well as being a Non-Medical Prescriber. She is the Guardian of the Wiltshire Airways Nurse Group (WANG) which she was instrumental in setting up several years ago. Cathy has extensive experience as a Trainer, having worked both as a regional Trainer for Education for Health, a Facilitator on the IMP2ART project as well as her own independent training practice, CW Respiratory.

To book a place/s email

bookings@networkforpractices.co.uk

Our acceptance of your booking brings into existence a legally binding contract between us on the following Terms & Conditions - If places are booked but cancelled before payment has been made or a candidate DNAs, the fee will remain due. Cancellations will attract a refund if the course is subsequently fully booked.

To avoid any confusion, we ask that Cancellations are by email only. We will make every effort to resell the cancelled place. Where places are free a £45 charge will be applied to cancellations/DNAs. Payment is required within 30 days from date of invoice.

Introduction to Asthma

Date: 16th September 2025
Times: 0930-1630
Venue: Wiltshire & Bath Air Ambulance Airbase, BA14 6JX
Places available: 12

Fee/s: NfP Members £105
Non-Members £150

Candidates need to bring a placebo dry power and pmdi inhaler that they will be able to use during the training

This workshop is suitable for: Registered Health Care Professionals / Assistant Practitioners & Nurse Associates.

Learning Outcomes & Workshop Objectives

Participants will have a greater understanding of asthma and how it affects the airways, how to take a detailed respiratory history and the basics in how to diagnose and manage the condition - including some of the treatments available and how to administer them correctly. The training is designed to give participants a taste of how to manage patients with asthma with a view to undertaking accredited training in the future. This training is suitable for any HCP and is delivered in an interactive and practical way.

This training is based around the current guidelines, both national and international.

Agenda

- Introduction/Aims of the Day
- Anatomy & physiology
- How to take a respiratory history
- Diagnosis of asthma / Use of current guidelines
- Management of asthma
- Inhaler workshop
- Summary / Evaluation

This training is kindly sponsored by the following Pharmaceutical Companies

TBC

The above pharmaceutical companies have sponsored this meeting through the purchase of exhibition stand space only and have had no input into the agenda

"Interactive, very informative, at the right level for beginners"

"I enjoyed the delivery and style of teaching"

"Cathy was inspiring, thank you!"
