or Julia Judd from J2S (to be confirmed nearer the time).

Booking Information

To book a place/s email

bookings@networkforpractices.co.uk

Our acceptance of your booking brings into existence a legally binding contract between us on the following Terms & Conditions - If places are booked but cancelled before payment has been made or a candidate DNAs, the fee will remain due. Cancellations will attract a refund if the course is subsequently fully booked. To avoid any confusion, we ask that Cancellations are by email only. We will make every effort to resell the cancelled place. Where places are free a £45 charge will be applied to cancellations/DNAs. Payment is required within 30 days from date of invoice.

Influenza Vaccination Training Programme for HCA's and New to Practice HCPs

Date: 25th July 2024
Times: 0930-1600
Venue: Zoom Online Platform
Places available: 15

Fee/s: NfP Members £105
Non Members £150

This workshop is suitable for: New to practice Health Care Professionals (HCPs) and experienced Health Care Assistants (HCAs).

This one-day course is suitable for new to practice Health Care Professionals (HCPs) and experienced Health Care Assistants (HCAs) and will provide all of the necessary resources and tools needed to deliver seasonal influenza immunisations. The session will be a full day interactive training course.

A prerequisite for HCA attendance is a minimum of two years' experience of general practice and evidence of learning, with an NVQ 3 or equivalent.

Delegates will receive a comprehensive workbook and competencies to be signed off by an assessor in practice. The clinician will require a period of supervised practice and review of practice annually including annual CPR and anaphylaxis updates.

Course Content

- What is flu - how the immune system works, epidemics and pandemics
- Undertaking a risk assessment of the patient prior to immunisation
- Consent and documentation
- Legal implications of advanced practice
- knowledge of NMC guides to medicine management and patient specific directives
- This seasons flu campaign, including an overview of recent changes to the programme
- Safe handling and storage of vaccination including infection control
- Practical demonstration to include consultation and procedure

Upon completion of the course and workbook learning, outcomes will include:

- An awareness of the roles and responsibility associated with administration of the influenza vaccination.
- Theoretical knowledge and practical skills to administer the seasonal influenza vaccination with the support of a Protocol and Patient Specific Directive.

Please Note: In attending this course the delegate and employer are aware of the "National Minimum Standards in Training of Healthcare Support Workers" and that the employer accepts responsibility for ongoing assessment and competence in immunisation skills to maintain safe practice".
