Julia O'Mara, RGN (BSc), NMP, PGCE, qualified as a Registered General Nurse in 1989, and has experience in many fields of nursing and teaching.

She has worked in Primary care since 1994 where she developed skills in practice nursing, long term conditions, first contact, history taking and assessment skills and independent nurse prescribing. Julia worked for many years at a senior strategic level for the CCG/ICB developing protocols/policies and chairing Forums. Julia works closely with her business partner Julia Judd providing education for Universities and Local Medical Committees.

Their joint vision is to make education and learning fun, interactive, easy to understand and practical with realistic expectations for Primary Care.

To book a place/s email

bookings@networkforpractices.co.uk

Influenza Vaccination Training for HCAs & Allied HCPs

Date:	30 th June 2026
Times:	0900-1230
Venue:	Zoom Online Platform
Places available:	12
Fee/s: NfP Members	£65
Non-Members	£110

This workshop is suitable for: Experienced HCAs and allied HCPs.

This half day course is suitable for [experienced HCAs and allied HCPs](#) developing skills to include adult influenza vaccinations. ***It is expected that candidates undertaking vaccinations for the first time, attend the Core Immunisation Training first, before attending vaccine specific training.***

The flu training programme will provide all of the necessary resources to deliver seasonal influenza vaccinations to include competency and legal frameworks.

Course Content

- What is flu; seasonal, epidemics and pandemics
- This seasons flu campaign, including an overview of recent changes to the programme
- Undertaking a risk assessment of the patient prior to immunisation
- Safe handling and storage of vaccination including infection control
- Practical demonstration to include consultation and procedure

Learning Outcomes

Upon completion of the course and workbook learning, outcomes will include:

- An awareness of the roles and responsibility associated with administration of the influenza vaccination.
- Theoretical knowledge and practical skills to administer the seasonal influenza vaccination with the support of a Protocol and Patient Specific Directive.

Please Note: In attending this course, the delegate and employer are aware of the UPDATED "National minimum standards and core curriculum for vaccination training" and that the employer accepts responsibility for ongoing assessment and competence in immunisation skills to maintain safe practice".
